RULING ON ENTITLEMENT¹

On July 12, 2019, Darla Neeley filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a right shoulder injury related to vaccine administration (“SIRVA”) as a result of a pneumococcal conjugate vaccine received on November 3, 2017. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On December 2, 2020, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent agrees that “petitioner’s alleged injury is consistent with

SIRVA as defined on the Vaccine Injury Table. Specifically, petitioner had no history of pain, inflammation, or dysfunction of her right shoulder; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 6. Respondent further agrees that "based on the medical records outlined [in the Rule 4(c) Report], petitioner suffered the residual effects of her condition for more than six months. Therefore, based on the record as it now stands, petitioner has satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
